MUSEUM ON WHEELS

S. Law

Principal

Museum on Wheels also inspired students to become education facilitators for a day. Jerin, a 5th grader from St. Marys School, Andheri and Falak, a First year BA History Student from Raheja College enjoyed giving tours to their fellow classmates. Instead of just being a spectator to the exhibition and programmes, they volunteered to help us out and engaged in activities that we, as education facilitators, did. The students were very enthusiastic and expressed their interest to someday join the museum. The students felt a high level of ownership and pride when their participation was tied with the visit's success. Therefore, here, Nina Simon's theory of supplemental contribution is effective. Students' contribution adds a unique and desirable flavour to the Museum on Wheels visit.

"I regretted taking history as my subject. But the whole Museum on Wheels concept has shown me a new way of looking at the subject about the scope and job opportunities."—said a BA history student of Raheja College of Arts and Commerce.

The Museum on Wheels team invited a resource person Ms. Snigdha Katkar, a ceramic artist for many of its visits, to demonstrate the art of pottery making to the students and general public. She has contributed a great deal to the Museum on Wheels education programme; it was also a learning experience as she could practice her skills in pottery making.

the opportunity to express themselves more clearly. We respect their contribution as this gives them a sense of pride.

The Tactile Experience

Museum on Wheels also provides access to differently abled students of our society. We made visits to institutes like the Hellen Keller Institute for Deaf and DeafBlind, Cancer Aid Research Foundation and Rochiram Thadani School for Hearing Handicapped where we had extremely enlightening experiences. At the Hellen Keller Institute for Deaf and DeafBlind, interpreters mediated the sign language for the tours of the bus to the differently-abled students. The handling kits were of great help in this. These kits were used for hands-on activities which helped these students understand the technology used in Harappan times. They were fascinated by the technology of Harappa—the pottery making, brick making, the lost wax process, and the bead making. They also engaged in the clay modelling activity as well as the seal making activity which deepened their level of engagement with the exhibition. This was a good learning experience for us as well, as we learnt a new way of communication. It is interesting that soon enough we picked up some of the signs ourselves and began communicating directly with them.

- The Godavari and the Krishna are the two major rivers in the state.
- The forest cover in the state is 16.47% of the state's geographical area. Out of the total cultivable land in Maharashtra, about 60% is used for grain crops with Jowar being the dominating crop.
- The name Maharashtra is believed to be originated from Rathi, which means Chariot driver. The name, Maharashtra first appeared in a 7th century in the account of a contemporary Chinese traveler, Huan Tsang. The name is derived as: Maha = great, and Rashshtra = Ratta, the tribe/dynasty of pretty chiefs (753-983) that ruled the Deccan region.

2] Discuss the factors affecting selection of product in Export Marketing?

Ans Selection of products is one of the most important factors in which exporters look carefully at the whole market situation and position of the product. Thus, by doing this one can achieve everything successfully.

* The factors affecting selection of product in Export Marketing are as follows:-

(i) Position of the product & manufacturer:-

The manufacturer should manufacture the product as per the market demands thus the manufacturer should know where the production of the product is needed. The product should be followed very closely with the help of export marketer.

(ii) Export Marketer should act as link:-

Thus the export marketer should know the market situation and thus as a link between the manufacturer and the export marketer.

NATURE

Nature, Environment or surrounding;
To what extent are we destroying it?
Do we think while we dwell and sit?

Having being greedy towards it in the past;
Can we change ourselves to have a future blast?

Sun, fruits, flowers and trees,
They have helped man for centuries!
We mustn't destroy it by building a dream city;
We must atleast fear the Almighty.

To what extent are we destroying it?
Do we think while we dwell and sit?

We need to question our soul;
Are we falling in a letting ourselves fall in a deep hole;
A dark, deep and on hole towards hell;
To avoid, we must treat the nature well.

Cutting the trees and it's useful branches,
we sit dwelling on haplessly on our bench.

As the years are passing by;
One day, the nature will start to stupefy!
We must change our attitude towards it;
Before it ~~she~~ starts getting worse that it ever did.

To what extent are we destroying it?
Do we think while we dwell and sit?
