Report of the activities conducted under the MoU between L.S.Raheja College of Arts and Commerce and Antarang Foundations from 2019 to 2021.

At the onset of the program each student filled in the Career Readiness (CR) Diagnostic tool, a proprietary tool built by Antarang in partnership with Adhyayan Foundation.

Sessions were conducted in teams thus helping the students to develop their team-work skills. Besides teamwork, there also were individual exercises that involved the participants developing their individual career plans.

During the course of the program a critical thinking session was also conducted. The critical thinking session helped the students to think for themselves and form data driven opinions.

The students also learnt resume writing and attended mock interviews to prepare for real-life job interviews. Closer to the end of their program, the students were again asked to make their career plan and this time, it was observed that their choices were far more realistic; making their dreams and goals truly achievable.

19 students went through a detailed career counselling session in the Antarang office with the placements team. The placements team spent 30-35 minutes with each student and by the end of the session, the students had a step-by-step career plan for themselves.

The class was assigned a project as part of which, the students did **a)** research in the industry of their choice. **b)** interacted with professionals in their respective sectors about the kind of job opportunities that the sector offers, **c)** detailed the career path, and **d)** explained how they found themselves suited for their respective industries through a class presentation.

A test was conducted as a baseline assessment at the beginning of the program and as an endline assessment at the end of the program.

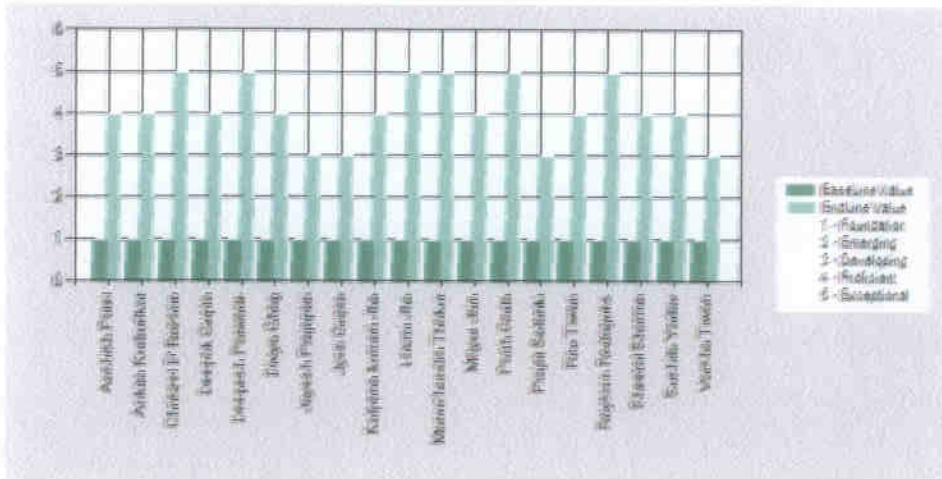

The CareeReady Program in L S Raheja College began on 19th August 2019. A total of 25 students enrolled in the program. The program concluded on 21st September 2019. (LSRC3)

Globally, 85 per cent of the world's young people live in developing countries, and an ever-increasing number of them are growing up in cities. by 2030, as many as 60% of all urban dwellers will be under the age of 18. All over the world, young people are finding it increasingly difficult to break into the labour market. Youth make up 25% of the global working age population, but account for 43.7% of the unemployed. This means that almost every other jobless person in the world is between the ages of 15 and 24. The exclusion from the economic, political, and social life of their countries *breeds disillusionment, hopelessness, and upheaval.*
Research has found links between youth unemployment and social exclusion, and suggests that this may lead to political and social instability, and possibly to violence. -Source - United Nations
