CAMPBUZZ
SCREENING OF DOCUMENTARIES

1) The Young Karl Marx' Documentary was shown on 02/12/20. Monday in order to introduce sociologist Karl Marx, his early years & ground-level activism. The students enjoyed the screening and participated in the discussion. Questions were raised about how to look at theorists who have been involved in activism. In addition to being a scholar, whether their activist side would be beneficial in developing a better theory or not. The students also got to know who were the predecessors of Karl Marx and thus got a better understanding of the background and the context in which Marx's scholarship was written. Total 19 students of TYBA had participated.

2) 'Bombay- Our City/Hamara Shahr' was screened on 25th January 2021. The main objective was to make students well-acquainted with the ground reality of slum evictions and the plight of slum dwellers through visual aid to analyse how the approach towards slum rehabilitation has changed over time. 55 students had participated in the said event.

Delving into the intricacies of 5G network

As in the industry with most technologies, 5G has been improving over the years. In the industry, 5G is being used for various applications like autonomous driving, smart cities, and industrial automation. The 5G network is expected to revolutionize the way we live and work. The 5G network is expected to provide faster speeds, lower latency, and higher capacity. The 5G network is expected to be a game-changer for the industry.
