# INTRODUCTION:

The Department of Economics of L. S. Raheja College of Arts and Commerce exists since the inception of the institution. The objective of the Department of Economics is to inculcate an interest among its students for Economics and give them a broad understanding of Economic theory and its applications in the real world. With this objective in the mind, the department offers very carefully chosen courses, out of a variety, offered by University of Mumbai for the subject of Economics and also those which are very relevant in the current as well as future world. The focus of the department is to introduce the application of quantitative techniques and tools to the Economic theory so that students develop a better understanding of the subject

# PROGRAM OUTCOME:

- **BA: BA in Economics**

The programme aims to identify the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid and applicable in reality, and looking at our ideas and decisions. Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them. Understand the issues of environmental contexts and sustainable development.

- **B. Com.: Business Economics**

The aim of the programme is to make students understand the dynamics of business decisions with the help of Economic theories. To develop an understanding about the application of the theories of Economics to real life. To develop an understanding about working of the government as an important entity in an economy.
