From Principal's Desk

“My four-word life advice – Keep Learning, keep evolving!”
– Anonymous

The world around us is in a state of constant flux. Today, we live in a dynamic and challenging landscape that is filled with both opportunities and threats. That is, it is vigorously full of opportunities for those who adapt and evolve. On the other hand, threats are for those, who stop learning. Unfortunately, these are the people who grow old and wither.

Likewise, the 21st century workplace is also transforming at a break-neck speed. To acclimatize with these evolving professional spheres, students are required to adorn new skill sets and master the art of strategizing and multi-tasking. Practical know-how is as important as the theoretical constructs. And thus, many of the traditional modes of teachings have gone obsolete. More so, teachers are required to ensure that their students will be able to measure up to the world of tomorrow.

At L. S. Raheja College of Arts and Commerce, we have a dedicated and enthusiastic teaching team. Our teachers focus on the holistic development of every student so as to facilitate their journey to the zenith of their potential. We at L. S. Raheja College realize that no two students are the same in their capabilities and therefore aim at providing a degree of flexibility that allows students to experience the best learning outcomes. We are dedicated to ensuring that our students make fitting career choices which will help them to reach their ultimate goal: success.

At L. S. Raheja College of Arts & Commerce, our focus has been to make our students industry-ready. We facilitate a culture of inclusiveness that inculcates confidence in our students to face challenges head-on, be efficient team-players, and emerge as leaders of tomorrow. Through means of counselling at professional and personal levels, we try to provide a sound environment that nurtures conducive growth.

Along with Academics, the College also participates and organizes a large number of sports events, extra-curricular and co-curricular activities at the collegiate and intercollegiate levels, in which all students are encouraged to participate.

Dr. Debajit N. Sarkar
Principal

WE ARE...

WE EVOLVED...

Sadhana Education Society, the parent body was established in 1961. Since its inception, the society was dedicated to the cause of education. With the mission to spread education in all its aspects and phases, across various sections of the society; to promote research and nurture the Gujarati culture, the society founded its first institute – Smt. Kapila Khandvala College of Education in 1961. Thereafter, it instituted Malti Jayant Dalal Primary School and Malti Jayant Dalal High School in 1968. In 1975, the Society also instituted Malati Jayant Dalal Nursery School and S. B. Kindergarten. And subsequently, to promote the all-round development of students and to facilitate education from K. G. to PhD under one banner, the Society instituted L. S. Raheja College of Arts & Commerce in 1980.

Summarized on the emblem, ‘प्रज्वलितो, ज्यन्मय् प्रदीपह्’ the motto of the College quite literally means, ‘To shun the darkness of ignorance and spread the light of knowledge’. The founders of the Society had a distinct vision to promote education and foster the scientific and academic temper of the young minds of Mumbai. The vision and mission of thus formulated.

The Sadhana Education Society’s L. S. Raheja College of Arts and Commerce (LSRC) is a Linguistic Gujarati Speaking Minority Institution situated in the heart of Mumbai’s suburbs. - The University of Mumbai started the Bachelor in Science in Information Technology (BSc.IT) programme in 2001. The programme to cater to the growing needs of corporate India also leads to the all-round development of software, design and research and development(R&D).
- The B.Sc.-IT at University of Mumbai and its affiliated colleges aims to synergies Information Technology in all its ramifications.
- To meet this objective the program is designed to provide basic inputs in various aspects of and a broad understanding of IT and its other interdisciplinary interfaces.
- The focus of the program is “Information Technology and management of information technology.”
- A look at successful businesses today reveals one strategic strand common to all they have evolved to become information enabled businesses. Smart businesses are turning to technology to guarantee them the extra edge needed to stay ahead of the pack. Information Technology’s role is fast emerging as a driver rather than an enabler of business. It is used from simple office automation to decision support, re-engineering and organization transformation .A new genre of managers who will harness the awesome capabilities of Information Technology, is required to tap the full potential of this tool. There is a pressing need for a program that can bridge the gap between managerial practices in Vogue and Information Technology so that business can be effectively managed.
